PROFESSIONAL SUMMARY

Full Stack Developer with 1 year of professional experience building scalable, user-focused web applications. Skilled in Java-based backend development with Spring Boot and REST APIs, paired with modern frontend frameworks including React.js and Angular. Experienced across the full development lifecycle, from responsive UI design to robust database-driven backend architecture, with a strong focus on clean, maintainable code.

EXPERIENCE

Junior Java Developer

June 2025 – Present

Eagle Infosys | Thane, Maharashtra

- Developed and maintained Java-based backend services using Spring Boot, delivering RESTful APIs consumed by frontend teams.
- Collaborated on full-stack features using React.js for UI components and MySQL for data persistence.
- Participated in code reviews, debugging sessions, and agile sprint cycles to deliver production-ready features.
- Optimized SQL queries and improved application performance for data-heavy modules.
- Worked with tools including Postman, GitHub, and Eclipse in a professional development environment.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML5, CSS3, C#

Front-End: React.js, Angular, Bootstrap

Back-End: Spring Boot, JSP, Servlets, REST API, .NET

Databases: MySQL, Oracle, SQL Server

Tools & Platforms: Git, GitHub, VS Code, Eclipse, Postman, Firebase

EDUCATION

Bachelor of Science in Information Technology (BSc-IT)

2023 – 2026

Mahendra Laxman Mhatre College, University of Mumbai CGPA: 9.2/10.0

HSC (Science)

The Scholars English Jr. College 74.33%

SSC

Dr. Omprakash Agarwal High School 70.80%

PROJECTS

College Leaving Certificate System | Java, JSP, Servlets, MySQL

- Built a comprehensive college management system covering admissions, attendance, and internal assessments.
- Implemented automated certificate generation with PDF and print export, plus role-based access for admin and staff.

Fee Record Management System | HTML, CSS, JavaScript, Java, MySQL

- Built a responsive fee management platform with secure, session-based authentication.
- Implemented real-time payment tracking with an admin/student dashboard, detailed reports, and student ledgers.

RSAPP (Ride Sharing Application) | React.js, .NET, C#, SQL Server, Firebase

- Built a ride-sharing platform enabling passengers to book rides and drivers to manage requests in real time.
- Integrated Firebase for instant notifications, ride status updates, and secure user authentication.

DJ Pearls Beed | React.js, .NET, C#, SQL Server

- Built an inventory and material management system for a manufacturing factory tracking stock movement and production materials.
- Implemented employee/department-wise material distribution tracking with detailed stock reports.
